## Safedge® Rim Guarantee

For over 70 years, Libbey's proven commitment to quality has been backed by our well-known guarantee, "a new glass if the rim of a Safedge glass chips."

If the rim of any glass covered by the safedge guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased. Of course, this guarantee does not cover breakage.

## Safedge® Rim and Foot Guarantee

If the rim or foot of any one-piece stemware item chips, Libbey guarantees to replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

This guarantee covers such lines as Embassy, Embassy Royale, Lexington, Catalina, Teadrop, Perception, etc. This guarantee does not cover breakage.

## Sheer Rim/D.T.E.®

Libbey's Sheer Rim/D.T.E. (Dura Temp Edge) stemware and tumblers feature a beadless edge which is first cracked-off then polished to produce a fine, yet durable edge. This creates a combination of elegance and affordability in glassware

for operators looking to upgrade their beverage service, while still maintaining longer service life.

Sheer Rim/D.T.E. Tumblers and Stemware are guaranteed against chipping of the Rim.

## Finedge®

Finedge glassware features a minimum bead and is available on a variety of tumblers and stemware. This finely rimmed glass-ware brings subtle beauty to any establishment.

## Heat-Treated Glassware

Libbey's heat-treated tumblers and stemware are created through a special heating and rapid cooling process after the glass is formed. This secondary process on the "blown" glassware is performed only on the upper portion of the glass where most abuse occurs.

Libbey's heat-treated glassware offers increased resistance to thermal and mechanical shock and is recommended for fast service cycle operations.

## DuraTuff®

The Libbey DuraTuff treatment is a special thermal afterprocess for "pressed" tumblers and stemware such as Gibraltar, Inverness, Everest, Paneled Tumbler, Dakota and Endeavour. The DuraTuff process is performed only on the upper portion of pressed tumblers and stemware to increase their resistance to thermal and mechanical shock.

Libbey's DuraTuff process produces durable glassware with prolonged service life for the foodservice industry. Look for the DuraTuff name embossed on all Libbey DuraTuff products.

# ° custom fit glass racks

## 5 Sizes / Diameters

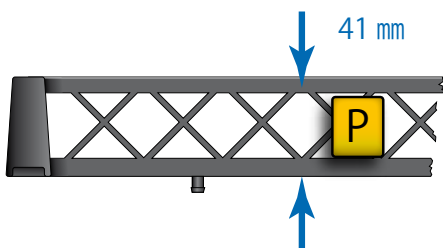

Compartment sizes 65x65 mm for shot glasses or small tubes up to 152x152mm for coffee cups or large tumblers.

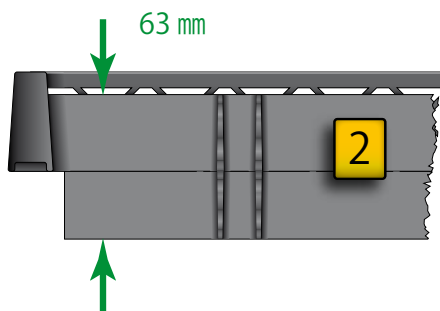

## 3 Different Extenders

Add Extenders to a base rack to fit glass height, up to 247mm, choose Extenders for best protection or washing performance.

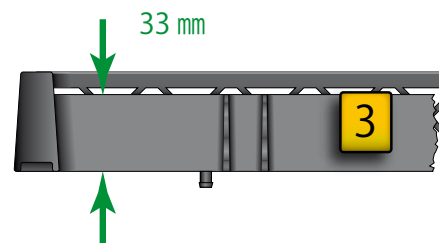

P-Extender, adds plain 41mm height

2<sup>nd</sup>-Extender adds 63mm compartment for better protection  
(Extender 2 for size 25 & 36 only)

3<sup>rd</sup>-Extender adds a regular 33mm protective compartment

## Stylish Colour

Black color gives distinctive appearance to your catering equipment.

Stays longer in shape than usual brown or blue.

International 50 x 50cm rack size for almost all professional dishwashers.

4 Extender 247 mm / 241 mm  
# GR-26-2PP3-BLK **Bestseller**

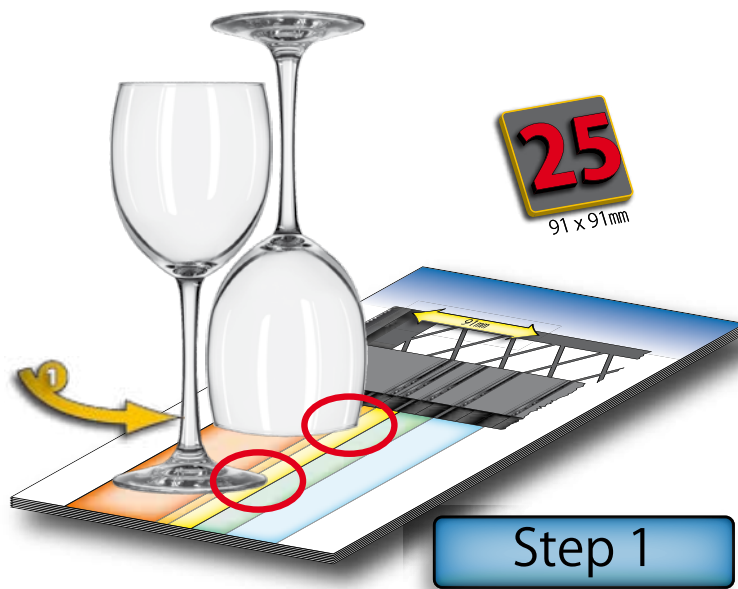

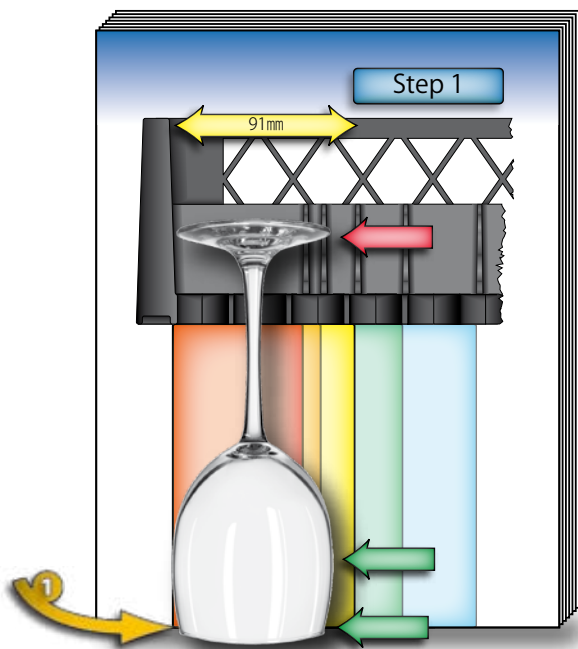

# 3-Step Construction Kit

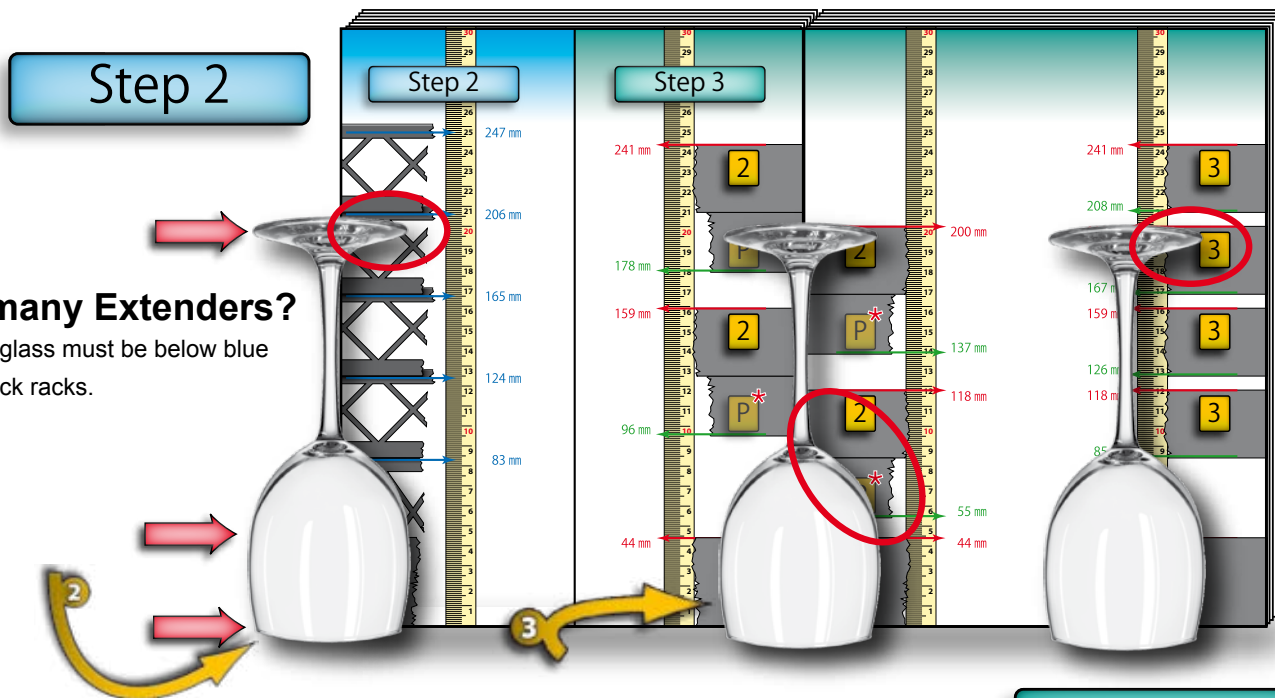

Use opposite and following two catalog pages to measure your glass and find the right glass rack.

1. Place glass in front of catalog or on top of page and look up rack size (9, 16, 25, 36, or 49 compartments).
2. Determine how many Extenders are needed
3. Protect goblet and foot (stemware) of glass with compartment Extender (type 2 or 3)

## Which RackSize?

Check top, bottom and maximum diameter with chart at other page.

## How many Extenders?

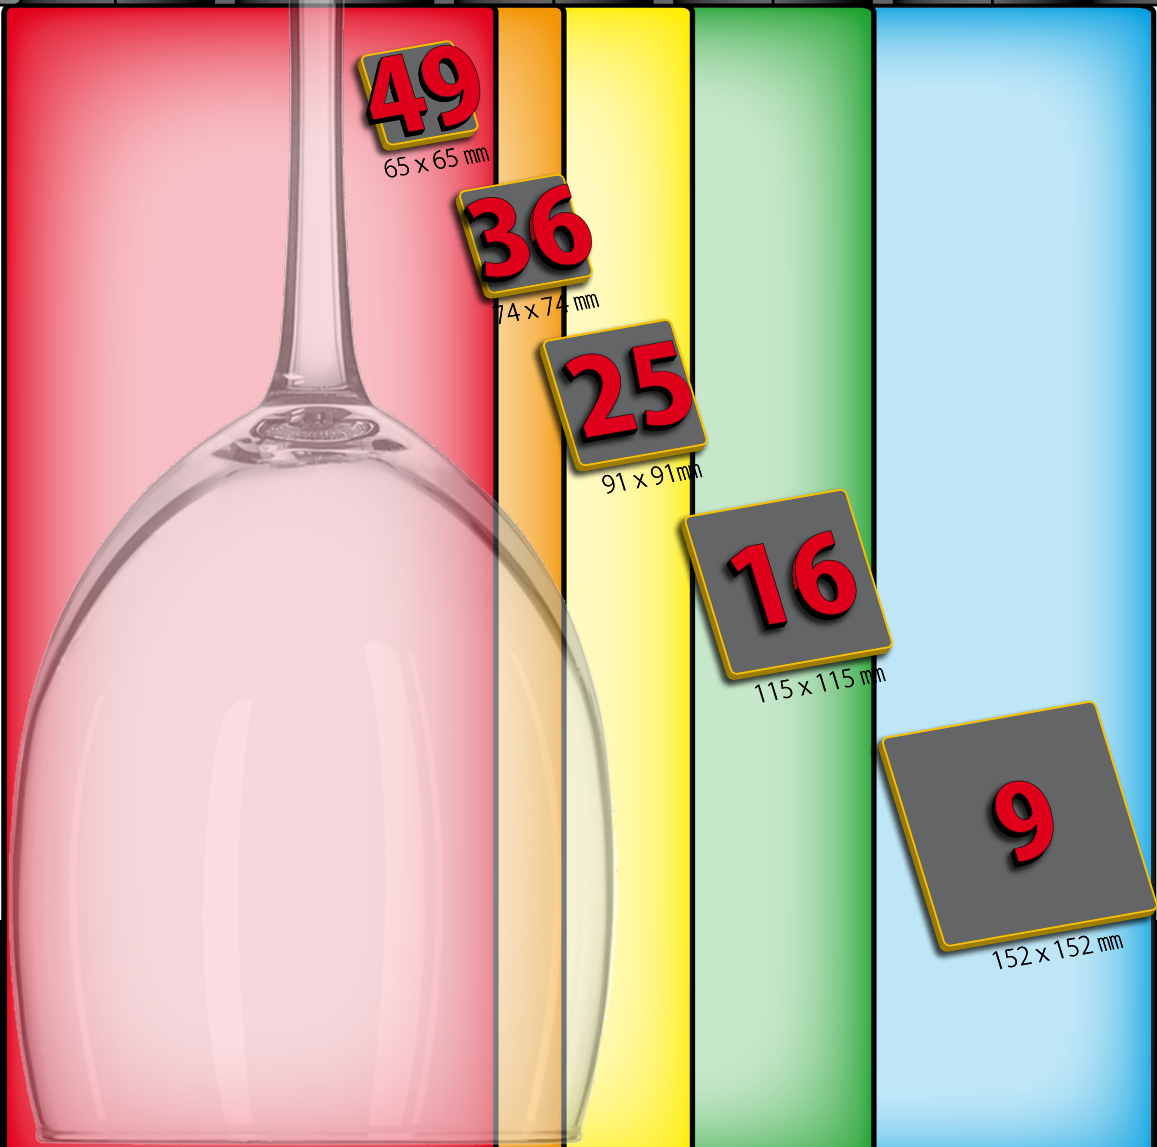

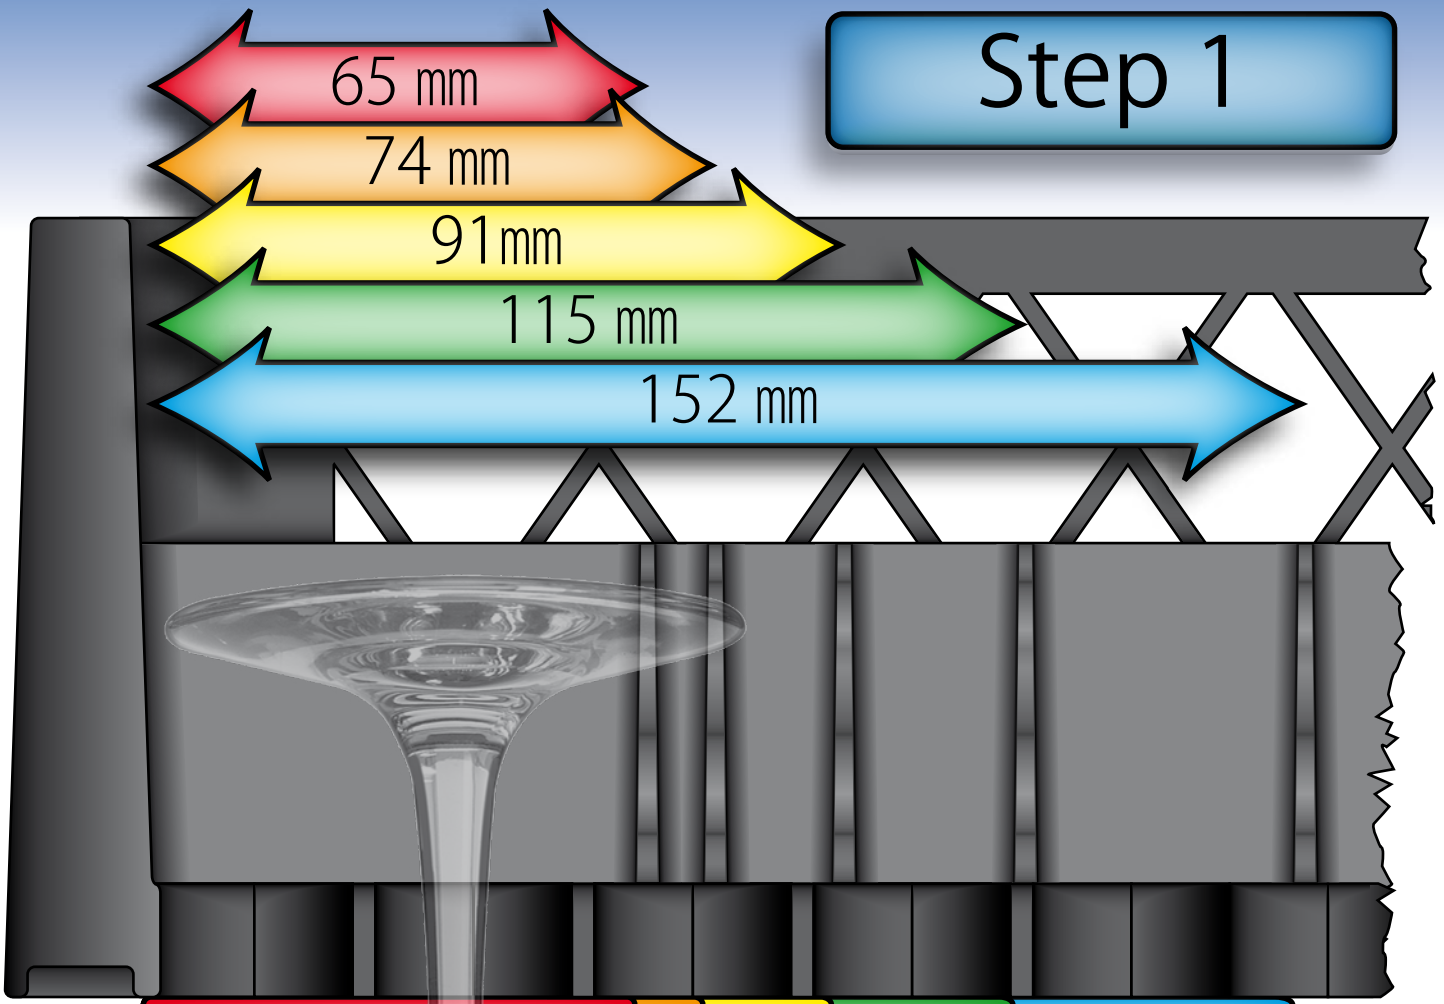

Height of glass must be below blue line to stack racks.

**Protect Foot and Bowl!** Choose which Extender is needed.

# °be unique!

Having your own logo on a bar tool or glasses gives your personal image a unique character.

Since there are so many different shapes of glasses there are quite a few options for placing the logo at the best position. The best position also depends on the shape of the logo and of the number of colours.

If you already have a special glass in mind you only have to send us your logo and we can create a digital preview of what the glass will look like at the end.

Of course there are many many more tools we can print on. Here we only give you an idea of what is possible.

**Whatever you have in mind – ask for it!**

#### Custom-made stirrers.

We print stirrers that we have on stock within one week from 1000pcs. up. Custom made moulds are available for a minimum of 50.000pcs.

#### «Laser Imitation» by Silk Screen Print

We are able to print logos which look like they are laser engraved. This special printing technique is done by silk screen process.

Different colours are also available and much less in price compared to high price laser engraving.

#### Print on Stainless-Steel

We print on stainless steel with pad- and silk screen machines. Due to a special pre-treatment long lasting prints are possible even on highly polished surfaces like shakers.

Multi-coloured logos are also possible.

#### Laser engraving on Stainless Steel

A permanent logo is achieved by laser engraving on stainless steel products. We can also polish after laser application for a more subtle appearance of your logo – ask your sales person for details.

# °custom-made barsupplies

### Print on Vinyl

Barblades with vinyl coating are perfect as a gift for promotional business.

### Print on Wood

Print, laser marking and hot stamping is available for wooden products.

### Print on Vinyl Shakers

Cocktail Shakers with vinyl coating are perfect for promotions. Not only are these shakers very popular due to their grip and insulation effect, prints in multi colour are possible with good visibility.

### Vinyl Colours

From orders above 300pcs. we produce every PANTONE COLOUR for you.

### Print on Pourers

We print on our regular bottle pourers – on the spout, collar or wherever it's possible. Custom-moulded pourers can be developed for all kinds of markets. Tell us about your needs.

### 1 Colour

Every Pantone Colour is possible.

### 3 Colours

Silver and gold are also possible.

### 2 Colours

90% of all our customers have 2-colour printings.

### 4 Colours

Silver and gold are also possible.

### Satin Etch

Looks like engraved or etched. As a very popular trend continues, we keep track of our customer's wishes. „Less is often more“. Instead of printing multi coloured logos with too much details, we print a special colour named satin etch. This subtle colour can range from solid white to nearly transparent. This look gives the glass an elegant attitude.

### Special shapes and positions

No matter if the glass has a handle, is curved or V-shaped or the customer wants an unusual printing position like on the base or vertically; we will find a way.

### Outlet & Brand Logo

We produce your glasses with your brand logo, store them and add an outlet logo upon order and ship it individually to the customer in time.

### Front & Rear

Small quantities for shows and events.

### Irregular Printing Positions

We can reuse the same printing plates for different glasses. You define one size and you can get a series of different glasses with the logo at different positions. By repeat orders or orders with different products, we can provide small qntys even if the printing position is uncommon or irregular.

### Capacity Lines

We have a licence to print capacity lines with CE approval.
